

## Dear Friends,

With Covid cases on the rise, I just want to offer some important reminders about our Mass procedures:

- Please continue to wear your mask in church.
- Sanitize your hands when entering church and, if possible, before receiving Communion.
- Do your best to keep distance while in church, especially when coming up for Communion. You can use the markers on the floor to space yourselves.
- Please refrain from congregating before or after Mass. Keep your masks on until you get to your car.
- If you have any symptoms of any kind, you must stay home.

I'm truly grateful for your cooperation with these procedures.

Just a reminder: I would be very grateful if you are able to increase your contribution to this weekend's second collection (maintenance and improvement). This is in place of our normal annual collection.

Also, there's still time to sign up for Fr. Tad's talk on Friday, November 13.

Enjoy this beautiful weather we having!

God bless you,  
Fr. Najim
